

The Corner Desk

#024 / EASY / 15 MIN

One of the characters is the victim — already on the board. Everyone else is a suspect. Your job: figure out where everybody was standing.

HOW TO SOLVE THE CASE

Beside means directly left, right, above, or below — AND in the same room. Diagonals never count, and walls break adjacency.

- Each row and each column holds exactly ONE character. When you place someone, small X marks fill their row and column — those squares become impossible.
- The victim was alone with the murderer. Each suspect card shows that character's clue: "north of...", "beside a plant...", "in the same room...". All clues are true.
- The victim's room ends with exactly two people in it: the victim and the murderer. Place everyone, then submit your solution to close the case.

Chairs, armchairs, beds, cars and water puddles can be occupied. Other furniture blocks its square.
